**New Business – Nordland 6 Road Retention Project**

Kerry Netzke presented updated cost and design information for a proposed road retention project in Nordland Township 6, located just upstream of an existing road retention project in Eidsvold 31. The cost of the project is estimated to be $109,445 and would provide 61 acre-feet of peak flood storage during a 100-year event. Additional storage could be gained by making minor modifications at the Eidsvold 31 culvert. Area 2 MN River Basin Projects has bonding money that can pay for 75% of the project costs and were seeking additional funding from the Watershed District.

Dritz moved to approve $10,000 for the project, contingent on the Eidsvold 31 modifications being made at the same time. Kraus seconded. Motion carried 4-0.

**New Business – Alta Vista 5, 8 Retention Project**

Javens presented data collected as part of researching the feasibility of building a flood retention structure on the North Branch of the Yellow Medicine River in Alta Vista 5 or 8 per the request of Manager Boulton and an interested landowner. A number of factors pointed to it not being worth pursuing further and the board directed no further action to be completed on this project.

**New Business – Permits for Tiling across Watershed Boundaries**

Lucas Youngsma, DNR Hydrologist, presented his findings on whether or not a permit was required from the DNR when landowners want to tile their land in one subwatershed, but outlet it into another. The YMRWD has two permit requests currently under review that cross DNR Level 7 subwatershed boundaries. Youngsma had reviewed those permits and determined DNR permits were not needed because they were not large enough to change the course, current, or cross-section of the river systems. The Board discussed both projects and determined they did not cause a water resource concern and otherwise met the criteria in Section 4.01 of the district rules. They also thought it would be prudent to seek legal guidance on the best way to evaluate similar permits in the future.

Dritz moved to approve a tiling permit (with diversion) for Brian Doom in Omro 18. Gregoire seconded. Motion carried 3-0. Kraus abstained from the vote.
